I liked that the Relationship Intelligence presenter related to what we go thru. * I learned about the many different risks that I never learned from school. * That bad things in life are often caused by casual sex and unhealthy relationships. * She gave us the real truth and good facts. * I learned to think before I act.

9th grade students, Becton High School, E. Rutherford, NJ

Being part of a Free Teens club helped me to avoid unnecessary mistakes in high school and shaped my life in such a positive way! With the understanding that I gained through Relationship Intelligence Training, I am now able to educate others.

Student at Manhattan Borough Community College, NYC

It was only 8 days. I think it should be longer. * This program should be given in all classes – not just in Health.

11th & 12th grade students, Newburgh Free Academy, NY

WHAT TEACHERS SAY:

Program was presented in an open, realistic manner. Sensitive subject matter that students need to know as they approach high school.

MM, 8th grade teacher, Henry Harris School, Bayonne NJ

Too many teens don't value themselves. They allow others to manipulate them. (RIT)'s message is absolutely important for students to hear!

AW, 7th & 8th grade teacher, PS16, Jersey City, NJ

I liked the explanation of mature and immature love. Also the strong visual impact of the slides.

WHAT PARENTS SAY:

The presenter helped to educate ME in order for me to better explain these issues to my daughter and help to build her self-esteem, self-respect and self-confidence. * The instructor related to our teens and what they go through. It is clear that you speak their language! * Sharing your sincere experiences was great....your passion, heart and love comes out so naturally! * This is straight talk, nothing to hide. It makes sense....very practical. * **Not only teenagers need to hear this. To create a healthy society, all adults need to hear this presentation as well!**
